DETAILED ACTION

Allowable Subject Matter

1. Claims 1-37 are allowed.
2. The following is an examiner's statement of reasons for allowance: with respect to claims 1, 5, 10, 13, 25, 32 and 35, in addition to other limitations in the claims, the prior art of record fails to teach, disclose or render obvious the applicant's invention as claimed, particularly the feature describing:

-claims 1, 25 and 32, combinational logic circuitry having at least first, second, and third serial stages, multiplexer circuitry for producing a carry out signal by selecting one of the carry in signal and an output signal of one of the stages of the combinational logic circuitry as the carry out signal.

-claim 5, a first path for selectively conveying, at a relatively high speed, signal information indicative of the carry in signal to a lead for signal information indicative of the carry out signal; and a second path for selectively conveying, at less than the relatively high speed, signal information indicative of the second of the combinational signals to the lead for signal information indicative of the carry out signal.

-claim 10, the third stage has first and second combinational signal outputs, and wherein the XOR circuitry logically combines the first combinational signal output with the carry in signal to produce a sum out signal.

-claim 13, first XOR circuitry logically combines the carry in signal with the first combinational signal output and second XOR circuitry logically combines the carry in

signal with the second combinational signal output to produce two further signals for application to the third stage.

-claim 35, circuitry for producing a carry out signal from at least the carry in signal and signal information from the source stage, wherein the circuitry for producing is connected so that the carry out signal is based in part on a third stage input signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
